[jamessunseri@berkeley.edu](mailto:jamessunseri@berkeley.edu)

I am an undergraduate who wants to inspire the generations of tomorrow with the discoveries of today. My goal in life is to be on the forefront of discovery in the fields of Astrophysics and Physics, and then share my knowledge with the rest of the world and inspire the people to keep pursuing science, technology, and education.

## WORK EXPERIENCE

09/18 – PRESENT

**BERKELEY HIGH MENTOR**, BERKELEY UNIFIED

I am currently a mentor at Berkeley High School under the RISE program, which is an after-school program to help students who are at a disadvantage in life succeed.

08/17 – 05/18

**HIGH SCHOOL TUTOR**, LODI UNIFIED

I was a high school tutor for my school district, and president of the school tutoring club.

## EDUCATION

08/18 - PRESENT

**UNDERGRADUATE**, UC BERKELEY

I am a freshman at UC Berkeley with an intended double major in Astrophysics and Physics. I received an A+ in Astro C10 and an A in Math 1B.

2014-2018

**HIGH SCHOOL DIPLOMA**, LODI HIGH

Graduated in the top two percent of my class, with a biliteracy seal in French. I was on the Science Olympiad Astronomy team that had no coach and went to the regional competition.

## SKILLS

- Self-Taught in basics of Python, Html, CSS, and JavaScript
- Proficient in Microsoft Office Programs
- Advanced in Photoshop and Illustrator
- Strong Leadership Training
- Quick Learner
- Work well with others

## ACTIVITIES

- In high school I started a program with my local science museum to teach middle school students awesome science that is relatable to what they learn in class yet can't be found in the textbook.
